

February ADVENTures

Building Skyscrapers

February 21 – 24, 2012

Instructors: Natalie Brubaker, Danielle Moran, and Kayla Phinney

Grades: ECC – 6th

Dates: February 21 – 24th

Times: 8:15 – 6:00 p.m.

Cost: \$75 per day

Are you a young architect waiting to build tall buildings that reach the sky? Join us for an adventure in building during the February ADVENTures week!

Students will combine their artistic talents and building skills to design their own unique structures. We will practice measuring and balancing as we experiment with a variety of materials including blocks, Legos, and recycled objects. With an architect's eye, we will explore Boston's skyscrapers for inspiration. Problem solving, physics, and collaboration will be essential for our final group-building project.

If you would like to sign your child up for one or multiple days of this program please fill out the registration form below and drop it off at the front desk with your total payment by February 6th. Checks can be made payable to The Advent School.

Space is limited to 14 students on a first come, first served basis.

Please email Natalie Brubaker with questions or comments at nbrubaker@adventschool.org
